Hydraulic Power Units

L Style Tank

Features

1. **Lower Profile**: Unit can be mounted under work tables, conveyors, etc. Easy access to pump and motor.
2. **Flooded Suction**: Longer pump life; pump always stays primed. No pump rusting during shut-down periods. Air bleed valves are not required.
3. **Easy Reservoir Draining**: Pump not required for draining. Drain ball valve provided.
4. **Self Flushing**: System flushes any material in suction line when a pump is replaced.
5. **Color Code Identification**: Allows for easy identification of items.
6. **In-Tank Filter System**: Provides easy element replacement without line drainage.
7. **Convenient Suction Strainer Maintenance**: Clean out access cover allows replacement of suction strainer without draining reservoir.
8. **Removable Top Plate**: Removable top allows for easy reservoir cleaning. No leaky end bells that make access for cleaning difficult.
9. **Integral Drip Pan**: Pump/ motor mounting area serves as drip pan- drain ball valve included standard.
